DETAILED ACTION

Specification

 The disclosure is objected to because of the following informalities: Brief Description for each drawing should be provided, as it appears, Figs. 4 and 9 should be labeled as "Prior Art".
 Appropriate correction is required.

Claim Objections

2. Claims 6 and 10 are objected to for being identical. Appropriate correction is required.

Claim Rejections - 35 USC § 112

- **3.** The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- **4.** Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 5. Claim 7 recites the limitation "the marker" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 7. Claims 1-3, 6-12 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Robinson et al. (US 5,733,176).

Robinson et al. discloses all the limitations of claim 1, i.e., a fixed abrasive article comprising three dimensional abrasive composites elements (18, 10) and wear indicator (16).

Application/Control Number: 09/910,425

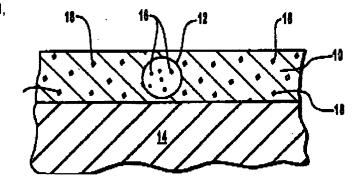

Art Unit: 3723

Regarding claims 2, 3, 6-12 and 15, Robinson meets the limitations, e.g., wherein the abrasive article is "textured" pad, erodable, visible marker (dye) in the binder (10), coated and/or embedded on/in an abrasives surface.

Claim Rejections - 35 USC § 103

- 8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 9. Claims 1-16 are is rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's Admitted Prior Art (AAPA) in view of Robinson et al.

AAPA, e.g., references cited and incorporated, meets all the limitations of claim 1, except for disclosing a wear indicator. Robinson et al. teaches placing a wear indicator in the form of a chemical, physical and/or optical disposed in a void in the binder. It would have been obvious to one of ordinary

skill in the art, at the time the invention was made, to modify the invention of AAPA with the pad indicator as taught by Robison et al. to indicate the time for changing the pad.

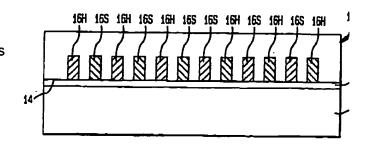

10. Claims 1-18 are is rejected under 35 U.S.C. 103(a) as being unpatentable over AAPA in view of Cheek et al.

AAPA, e.g., references cited and incorporated, meets all the limitations of claims 1 and 17, except for disclosing a wear indicator, in the form of a post (claim 17). Cheek et al. teaches placing a post like wear indicator in the binder. It would have been obvious to one of ordinary

Application/Control Number: 09/910,425

Art Unit: 3723

skill in the art, at the time the invention was made, to modify the invention of AAPA with the pad indicator as taught by Robison et al. to indicate the time for changing the pad.

Conclusion

- **11.** Prior art made of record and not relied upon are considered pertinent to applicant's disclosure. Raede et al., Rutherford et al. and Robinson et al. are cited to show related inventions.
- **12.** Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Hadi Shakeri at (703) 308-6279, FAX (703) 746-3279 for unofficial documents. The examiner can normally be reached on Monday-Thursday, 7:30 AM to 6:00 PM. All official documents may be faxed to (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist at (703) 308-1148.
